## Innovate

Teaching today is challenging, exciting and rewarding with inventive, creative and technology-based teaching practices.

## Motivate

Enthuse and inspire young people – teach today and create tomorrow. Teaching is more than just a job.

## Educate

Help young people learn and develop the skills for an ever-changing world. Teaching empowers others to take the next step in their lives.

## Careers in education

With around 1,600 government schools across metropolitan Melbourne and in rural and regional Victoria, there are many diverse job opportunities in addition to teaching. These include:

- specialists such as psychologists, nurses, welfare officers and speech pathologists
- School Services Officers undertaking a range of roles such as managing school finances, human resources, library, or providing assistance to teachers and students or providing out-of-school care and clerical support – all vital to the smooth day-to-day running of a school
- Department of Education and Early Childhood Development staff that have responsibility for the policy development, co-ordination and administration of government schools across Victoria.

Career advancement, learning and development opportunities, competitive salaries and superannuation, work/life balance and extensive leave provisions are all on offer.
