## Background Information

The Kahootz Healthy Active Teen Byte Competition aims for a practical, real and positive way to encourage healthy eating and an active lifestyle by showcasing student created Kahootz movies on these issues.

The movies may be shown on community television plus they will all be showcased on the new Classnet website ([www.classnet.com.au](http://www.classnet.com.au)) which is launching early June.

The content will vary but in the main the segments will focus on:

- Healthy eating
- What's in your food
- Physical and sporting activities that are beneficial to young people
- Body image
- Short Community Service Announcements

All these will have a focus of raising awareness, changing or reinforcing perceptions about what constitutes healthy living for young people.

Copyright, generic parental permission forms, privacy and technical information will all be archived on the Classnet website
