

# Student Representatives

---

Some school councils allow for student representatives/s on school council as part of the community member category.

How the students are put forward is a decision of the school council. The student might be nominated by the student body, or by the school council itself. This is a decision made by the individual school.

## Role of student representative(s)

---

A student representative contributes to school council by:

- finding out the views of other students to share with the school council
- participating in any committees established by the school council
- communicating information from the council to other students
- taking a school-wide perspective in decision-making
- having the same voting rights as elected members
- observing the council's code of conduct.

*Note:* see [School Council Membership](#) and [School Council Code of Conduct](#) for further information.
