Literacy and numeracy is a shared commitment for: all children and young people, schools and early childhood services, families and communities.

Celebrate these partnerships during National Literacy and Numeracy Week 2010.

Join in national activities, participate in Statewide Games Day on Monday 30 August, or host local events during the week.

Activity ideas

Read and share a range of books and other texts with children

Listen to and respond to children's attempts at new words

Provide resources that encourage children to experiment with images and print

Provide children with access to a range of technologies

Show children patterns in their environment and talk about how they are used
