Brigance DVD now here!!

Two representatives from each Local Government Area (LGA) are invited to attend an information session on the DVD:

**Brigance Basics**  
*A Guide for Maternal and Child Health Nurses*

This DVD is an educational resource to support the implementation of Brigance Screens in Maternal and Child Health (MCH) practice.

It offers the MCH nurse the opportunity to observe and participate in scoring Brigance on six individual children at each of the Key Ages and Stages consultations from 4 months until 3.5 years.

**Session objective:** to empower nurses with the tools and knowledge required to become Brigance champions and to educate their MCH teams in best practice use of the tool.

Participants will each receive a facilitation guide, and one copy of the DVD per LGA.

**The DVD will only be distributed to LGAs who attend this information session.**
