1. **Scope**

The following information provides details in relation to the Occupational Health and Safety (OHS) responsibilities and accountabilities of various Department of Education and Early Childhood Development (DEECD) employees.

2. **Definition**

OHS responsibilities consist of:

- General responsibilities of individuals under common law requirements.

3. **Responsibilities**

In order to ensure OHS processes are integrated into operational activities, certain tasks may be delegated to a person who has control of the matter. However, ultimate responsibility remains with the position nominated in this procedure. These responsibilities should be read with the general responsibilities outlined in each of the OHS Management System (OHSMS) procedures and in conjunction with the *Occupational Health and Safety Act 2004*.

The responsibilities outlined below will be placed in job descriptions.

OHS responsibilities will be included in the performance plan review process for schools and central and regional office employees.

Workplace Managers may nevertheless delegate to the Management OHS Nominee, or other employee, the operational aspects of implementing health and safety initiatives.
