Source of data: Data transmitted from school staff to DEECD via an online survey application.

School Mean against Secondary State Median

Notes:
†† An assessment of the correlation between the P&DC Questionnaire and the Staff Opinion Survey was undertaken using data from Victorian Government schools that completed both surveys from 2005 to 2007 (ie. 699 schools). This led to the identification of the components of the Staff Opinion Survey that could be used to assist schools with the ongoing monitoring of their performance and development culture. Refer to the P&DC website for further information: http://www.education.vic.gov.au/management/schoolimprovement/panddc/default.htm. For numerical results relating to the above graph, refer to the Staff Opinion Survey page in this report.

† Note that there is no significant correlation between the Staff Opinion Survey and P&DC elements 1 (Induction) and 3 (Customised Individual Development Plans).

^ The P&DC threshold was derived from the P&DC Questionnaire 'percent favourable' methodology where a school is considered at the standard of accreditation when their Element score is >75% favourable (ie. at least 75% of staff selected the top two response categories in the P&DC Questionnaire).

* The school trendline is only plotted when there is data for each calendar year.

** If there were 3 or less respondents, graph data is not shown for confidentiality reasons.

^ Benchmarkas are available for Primary, Secondary, Pri/Sec, Special & SDS schools.
