Student Success Plan and portfolio examples

Instructions for students
You are to include four pieces of work in your portfolio from Semester 1.

Three pieces should be your best pieces of work from three different subjects. One piece can be your favourite piece of work.

Examples of pieces of work:

- Assignments
- Projects
- Worksheets
- Models
- Drawings or paintings
- Tests
- Essays

Note: some pieces of work are difficult to include in your portfolio (e.g. dances, drama performances, large models, beep test in PE etc.). However, you can still answer the questions below about them.

Answer these questions about your three best pieces of work and favourite piece of work. You should work on one piece at a time:

- Describe each piece of work
  - What did you have to do to complete it?
- What was your feedback and result?
- Why was it your best piece of work for that subject?
- What did you do really well on each piece?
- What could you have done better to improve?

Consider a piece of work which you weren’t happy with, or didn’t do so well on. What advice would you give yourself for the next time you try some work or a task like this?
